

ACKNOWLEDGEMENTS TO THE REVIEWERS

of the manuscripts submitted to the Editorial Board of the Journal, in 2018

Appreciating the contribution and significance of the reviewers in making an attempt to continuously improve the quality and role of the Journal, the Editorial Board of the Economic Horizons Journal wants to thank the reviewers of the contributions submitted to the Editorial Board during the year 2018.

The subject-matters of the research studies of the papers which the Editorial Board includes in the double-blind reviewing procedure are from within the pertaining fields of economics, business economics and management, as well as from different thematic fields corresponding to them. Pursuant to that, following the criteria of the relevant knowledge and scientific-research correspondence in relation to the subject-matter of the research study of the papers, competent representatives of the academic community, listed in this overview, are engaged for the consideration and critical valuation of the papers.

By their critical, well-argued and objective valuation of the papers they were entrusted with, aware of the importance and responsibility of a quality reviewing procedure, our reviewers significantly helped not only the Editorial Board to make decisions on the acceptance of the papers for publishing and their categorization, but also the authors, with respect to the improvement of the quality of their manuscripts as an important condition for the continuous enhancement of the quality of the Journal.

Editor-in-Chief
