

## ACKNOWLEDGEMENT TO THE REVIEWERS

of the manuscripts submitted to the Editorial Board of the Journal in 2023

The Editorial Board of the *Economic Horizons* scientific journal thanks the reviewers for their critical, objective and argued valuation of the manuscripts submitted to the Editorial Board in 2023.

The subject matters of the research studies conducted in the manuscripts belong to the significant fields of economics, business economics, management and the thematic fields complementary with them. The competent representatives of the academic community mentioned below in this overview critically valued the manuscripts and thus supported the Editorial Board to improve the total quality of the Journal through the double-blind peer review process.

Given the fact that the Journal's editorial policy is directed towards the continuous improvement of the quality of the published manuscripts, the reviewers' constructive comments helped the Editorial Board to make decisions on the acceptance of the papers to be published and in their categorization. The reviewers' concrete objections and suggestions also significantly helped the authors to improve the quality of their manuscripts as an important condition to meet in order to continuously improve the quality of the Journal.

Milena Jakšić
